To the Clerk of Baydon parish Council

Re: Further Complaint against Baydon Parish Council

I write to complain regarding the lack of information supplied to residents as to when the commencement of the build out works were to take place. Many residents were completely unaware that these works were going to take place at all believing that it had long been abandoned. I have been asked many times in the last few days by residents from various parts of the village "why is the road closed" and "what is happening". There are many unhappy residents who feel this has been sprung upon the village at very short notice with very little or no information. It is common courtesy for the Parish Council and their mandate to act for residents.

During my conversation with Steve Hind on Tuesday, he said he had supplied the Parish Council with all the information required for distribution and was of the belief that everyone had been fully informed.

Yours sincerely,

Mrs Jane Archer
